“Once you understand the
foundational concepts of the
NCLEX test, you can
prepare and take the test
with much more confidence”

- Alisha Prince

“ Alisha & Sunnviva tutoring not only helped me with study strategies, but confidence in answering questions appropriately and accurately. The study tips are easy to follow! I am now following my dream path as a Hospice RN with Gentiva hospice. The confidence building was incredibly helpful for me as a new nurse! Thank you Alisha for your thoughtful and intentional tutoring” !

- Amanda - Former Student***
- Columbus, Oh***

“ Very good at presenting information and helping with any content that is asked. She was very flexible and never had any problems. She could teach me the content if it were unclear. Overall, best tutor I have had “ !

- Kaley - Former Student***
- Fort Worth , Texas***

After a very rough medical year of many hospital stays and surgeries that took me away from school and life, I realized I need help. That is where this beautiful girl came in and saved me and pushed me over the finish line AKA graduation. She is such a wonderful soul and a caring person. She is the sole reason why I passed the Nclex test.

- Hali - Former Student***
- Georgia***
